

C Users Group Library

DSK-372\CUG.LZH

Im allgemeinen ist eine Nummer dieser Sammlung eine Diskette. Die niederen Nummern enthalten oft mehrere Programme, alle anderen aber ein ganzes Programmpaket.

Diese Sammlung wird durch die jeweiligen Programmautoren gewartet. Es kann daher vorkommen, daß eine einzelne Zeile auch mehr als eine Diskette umfaßt, da im Laufe der Zeit Ergänzungen und Verbesserungen durch den Autor vorgenommen wurden.

Bestellbeispiel: CUG203 YAM for MSDOS

Für eine präzisere Suche können Sie einen 4-bändigen Gesamtindex um \$ 28,- (+45% Versand) mit der Bestellbezeichnung CAT24 bei The C Users Journal, 1601 W.23rd St, Suite 200, Lawrence KS 66046-2743 bestellen. Am besten bestellt man mit einer VISA/MASTER/EURO-Card. Zur Vereinfachung gibt es auch einen Bestellschein als PCX-Datei CUG_BEST.PCX in der ZIP-Datei CUG.LZH auf der Diskette zu diesem Heft. In diesem Index kann auch systematisch gesucht werden.
